Access & Referral Priority Oesophageal and Gastric Cancer:

The clinical information provided in your referral will determine the triage category. The triage category will affect the timeframe in which the patient is offered an appointment.

| URGENT | ROUTINE |
|---|---|
| Appointment timeframe 30 days | Appointment timeframe greater than 30 days, depending on clinical need. |
| <p>Any patient with symptoms or investigations indicating a suspicion of oesophageal or gastric cancer</p> <ul style="list-style-type: none">• Endoscopic evidence of suspected malignancy or biopsy proven cancer• New onset or rapidly progressive dysphagia• New onset or rapidly progressive epigastric pain (>2weeks) | <ul style="list-style-type: none">• Persistent epigastric pain/ dyspepsia – despite 4 weeks PPI• Pain on swallowing• Food bolous obstruction• Anaemia – hemodynamically stable• Unexplained weight loss• Early satiety |

Western Health Specialist Clinics Access & Referral Guidelines

Condition Specific Referral Guidelines:

Key information enables Western Health to triage patients to the correct category and provide treatment with fewer visits to specialist clinics, creating more capacity for care. If key information is missing, you may be asked to return the referral with the required information.

| Condition: | Key Information Points: | Clinical Investigations: |
|--|---|--|
| Any patient with symptoms indicating a suspicion of oesophageal or gastric cancer | <ul style="list-style-type: none">• Clinical symptoms and examination findings• Past medical history and medication list• Family history• Details of smoking and alcohol use | <ul style="list-style-type: none">• Gastroscopy reports if performed previously• Full Blood count• Urea, electrolytes and creatinine• Liver function test |
